Robert D. Solis

Chief Information Officer

MIT Lincoln Laboratory

Bob joined MIT Lincoln Laboratory as Chief Information Officer in 2016. As CIO, Bob is leading the Laboratory's IT strategic vision and transformation. Bob is partnering with the Business Transformation Office focused on enabling the state-of-the-art technology research mission by optimizing enterprise operational processes, modernizing business systems, and empowering staff's ability to leverage current and future information technology.

Bob has over 30 years of experience in information technology and services in the fields of Higher Education and Healthcare. Prior to joining MIT, he was Vice President and Chief Information Officer for the University of Massachusetts, where he oversaw the enterprise information services provided to the University system of four campuses and a medical school. Bob has served as the senior IT executive on key governing bodies and chaired the University CIO Leadership Council. He additionally served as the board member for the Massachusetts Green High Performance Computing Center, committee member for the EDUCAUSE IT Program and strategic advisor for Blackboard Inc., a market leader in on-line learning technology platforms. Throughout his career Bob has effectively applied his business and technical leadership in transforming and modernizing information services and technology to help achieve mission success.

Bob earned a Bachelor of Science in Biochemistry from the University of Massachusetts, Amherst, a Master in Business Administration from Northeastern University, and an Executive Management and Leadership Certificate from the MIT Sloan School of Management.
